

# Terms tab

This tab displays the account types the customer has already selected.

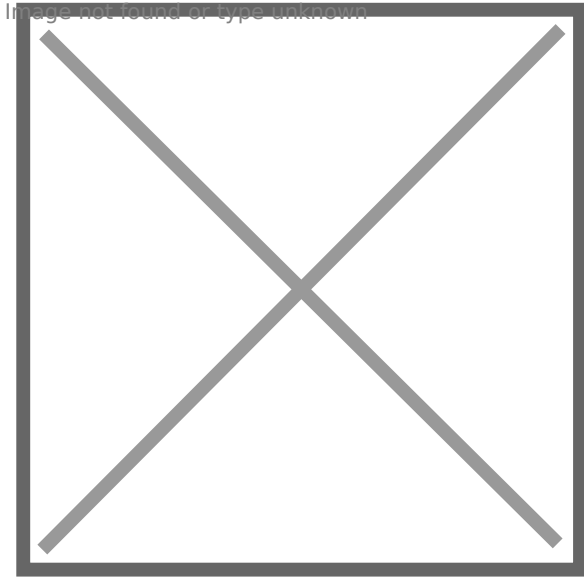

Image not found or type unknown

*What is the Regenerate Terms Button?*

The regenerate terms button enables you to regenerate the terms presented to the customer. This is usually applicable when you are creating an application from the back office or when you need to regenerate the terms in scenarios when a new type of account has been added after the

application has already been created. When you regenerate terms you will be shown the following popup:

It is advised to never bypass fraud checks other than in special scenarios at the staffs discretion.
